## Additional Information

**Agency Name:** Centers for Disease Control and Prevention - ERA

**Description:** This initiative is intended to support effectiveness research to evaluate innovative programs, practices, or policies to address risk for interpersonal violence and suicide among groups experiencing a high burden of these issues. Innovative approaches are those that have not been rigorously evaluated for effectiveness in reducing interpersonal violence or suicide. Analyses examining how the approach affects different populations that are most impacted by these issues are a priority. Funds are available to conduct studies focused on preventing interpersonal violence or suicide involving youth or young adults (ages 10–24 years), including child abuse and neglect, intimate partner violence, sexual violence, suicide, and youth violence.
